**AMENDMENT REQUESTING ENTRY OF SUBSTITUTE SEQUENCE LISTING**

Dear Sir:

In response to the Notice of Defective Response, dated September 12, 2008, Applicants submit herewith a Substitute Sequence Listing in .txt format. Because the Substitute Sequence Listing is electronically filed in .txt format, it is believed that no statement as to sequence listing identity is required, as the .txt file serves as both the paper copy and computer-readable form copy of the Substitute Sequence Listing.

Applicants corrected the deficiencies noted by the sequence reviewer with respect to the Unknown explanations at lines <223> for each sequence. Further, Applicants noted two additional sequences that were inadvertently omitted in the original Sequence Listing. Those sequences are included in this Substitute Sequence Listing as Sequences 1 and 2, and can be found at page 61 of the Specification as originally filed. The remaining sequences described in the prior Sequence Listing are present in this Substitute Sequence Listing and renumbered as Sequences 3-7.

The Substitute Sequence Listing includes no new matter, in accordance with 37 C.F.R. 1.821(e), (f) or (g), or 1.825(b) or (d). Hence, Applicants respectfully request entry of the Substitute Sequence Listing into the present application.

Respectfully submitted,

/Jennifer L. Livingston/
